

Faculty Award for Academic Excellence

The Dublin High School Faculty Award is presented to a student who best exemplifies academic excellence, dedication to DHS and seriousness of purpose.

It is this “seriousness of purpose,” that sets this individual apart. This student approaches both her schoolwork and her co-curricular activities with the drive and purpose one would expect of a much older student.

Her exceptional ability to analyze complex subjects and then explain them rationally and persuasively exceeds that of most adults and puts her as a stand-out among her peers. In her role as student representative on this school board, this individual is mindful to represent a variety of voices. She is someone aware of her privilege and uses her voice to speak out for others. She has been able to use this platform on the school board to bring awareness for a variety of issues, including Mental Health. She is courageous and is not afraid to bring up concerns, yet she does so in a quiet, composed manner that allows true dialogue to take place.

It is great pleasure and honor that we present the 2020 Faculty Award for Academic Excellence to Tinni Mukherjee.

Udayanti (Tinni) Mukherjee
